## EXPERIENCE

**Jordan Crown**, Greater Seattle Area, WA — *WordPress Developer*

DEC 2019 - PRESENT

- Senior Web Developer responsible for the architecture of information, planning, development, testing, and launching of WordPress sites. Managed hosting accounts, DNS hosting & records, etc.
- Architecture of a Gutenberg development workflow built around ACF's recent integrations, including tooling for handling SCSS compilation, gutenberg block creation w/ ACF JSON field generation and custom admin theming. Built using gulp, NodeJS, NPM and Plop.

**Blue Laser Digital**, Columbus, OH — *Full-Stack Web Developer*

SEPT 2017 - OCT 2019

- Primary role as a web developer using WordPress as the framework. Wrote various custom plugins to extend WordPress functionality. Custom Post Types, Shipping, Payment Processing, WooCommerce and various other WordPress integrations including Gutenberg w/ ACF Blocks.
- More recently adopted ReactJS in response to client's preferred methods.

## EDUCATION

**Millersville University**, Lancaster PA — *Bachelor of Science Computer Science*

SEPT 2008 - DEC 2012

Cum Laude, Dean's List (5 Appointments)

## PROJECTS

**EZContact** — *Customer Relation Management Tool*

An internal CRM tool that manages nearly every aspect of the company from timesheet management, PTO Distribution, project and marketing campaign management, to various SEO tools for our SEO Campaigns.

**Campaign Manager** — *Marketing Campaign Management Tool*

This tool offers various contact tracking metrics and facilitates the flow of outreach throughout the entirety of a given campaign.
